

June 11, 2020

The post for today is from Karen Boyle who heads up our Community Outreach Ministry. I asked her to give you an update of how we are helping folks in our community with food and other necessities.

“A Heartfelt Thank You

On behalf of our local families, the St. Maria Goretti Community Outreach Ministry thanks all of you for your generous and continued support!

With our reduced buying options due to store restrictions, we continue to supply food and non-food items to families upon request. **Within the last week we have already provided generous support to over 50 families which would not have been possible without YOU!**

Our pantry service continues to be available on an appointment only basis at this time. Families are so grateful for the generous selection of food and non-food items. Your efforts do make a difference in our neighbor's lives!

Should you wish to continue providing supplies here are some suggestions of needed staples...

Canned fruits, soups, mushrooms, diced tomatoes, meat flavored pasta sauce, canned chicken.

Cereal (Cheerios & Fruit Loops are very popular), breakfast bars, pop tarts.

Mayonnaise, ketchup, sandwich pickles, hamburger helper.

Fruit juice, coffee, snacks

Bar (bath) soap, toothpaste and as always any other items you and your family enjoy and would like to share!

Questions? Please call 865-5481 and we will be happy to help!"

We think that after today some of the construction that has hindered access to our property will be resolved so it should be easier to get in and out of our parking lot.
